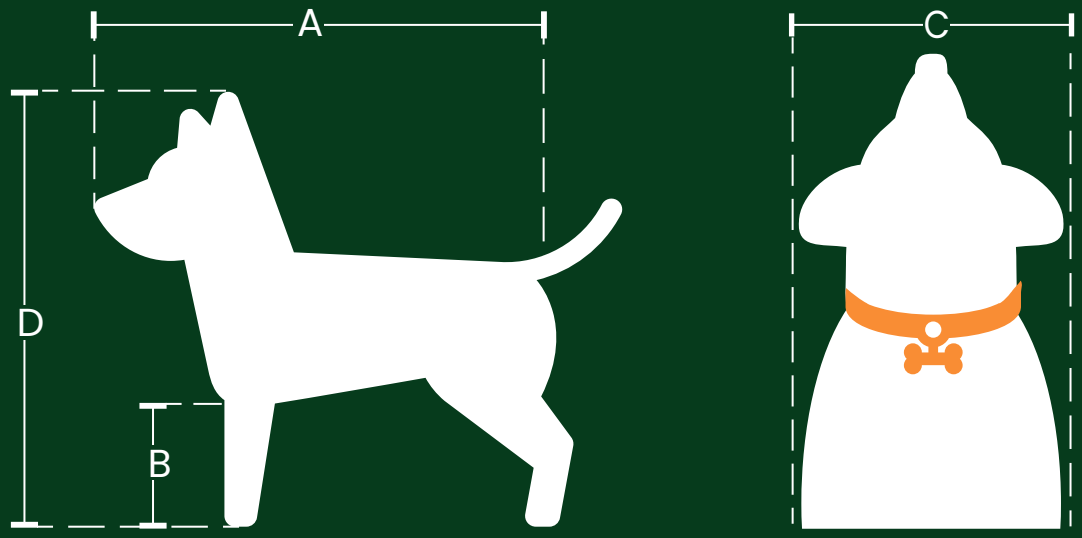
Pet Adventures

Selecting Your Pet's Crate



A - Length: From tip of nose to base of tail (not including tail):_____ (cm)
B - From the elbow measurement to the ground:_____(cm)
C - Width: The width of the dog at the widest point:_____(cm)
D - Height: Ground/floor to top of head (including ears):_____ (cm)

If own crate available:

Measurement:
Length x Width x Height (cm)

_____ _____ _____

Determination of Container used:

Length of container	=	A+1/2B
Width of container	=	C x 2
Height of container	=	D +10 cms

NOTE:

- Head or ears must not touch the top of the kennel in animal's natural standing position.
- Snub nosed breeds require 10% larger container.
- Contact us to have a customized crate following your pet's size.

We look forward to supporting you and your pets with their future travel needs!
